Chairman Message

Dear Members,

I wish to thank you for the members' support and patience over the months, as we are still facing the pandemic.

We are continuing to drive innovation in critical areas to reduce direct touch, like digital menu, self declaration form, cashless payment and online events while club remains focused on the health and safety of our members and employees and keep implementing the procedure to prevent the covid-19 outbreak.

Monthly Medal has been back since June and we wrapped the prize giving with online system to keep it fun and still interactive with the Members. This system will go on during the pandemic.

We are continually working to keep our club sanitised and spray the disinfectant to all areas every day, conducting course maintenance program regularly on and off course.

Once again thank you to our dear and valued members for your kind attention and I hope you stay safety and healthy.

A stylized, handwritten signature in black ink, consisting of several loops and a long vertical stroke.

Perkutut, Terkenal dengan Kicauan dan Mitos *Perkutut, Popular with Chirp and Myth*

By Robby Chandra-landscape Supervisor BSD Course

Terdapat satu jenis burung yang sangat populer di Indonesia dan banyak dipelihara, yaitu burung perkutut (*Geopelia striata*). Burung yang banyak dipelihara oleh masyarakat Jawa ini juga memiliki mitos tersendiri. Burung perkutut dipercaya bisa mendatangkan rezeki, ketentraman rumah tangga serta bisa menambah wibawa seseorang. Walaupun hanya sekedar mitos, namun banyak juga pecinta burung perkutut yang mempercayainya. Di samping semua mitos yang ada, memelihara burung perkutut dapat menghilangkan stres dengan kicauannya yang indah.

*There is one species of bird that's very popular in Indonesia and many people keep it as pets, Perkutut (*Geopelia striata*), internationally better known as as Zebra Dove or Barred Ground Dove . Perkutut bird also has its own myth in Javanese society. It is believed to bring sustenance, peace of the household and can increase one's authority. Although only a myth, but there are also many perkutut lovers who believe it. Besides all the myths that exist, raising a perkutut bird can relieve stress with its beautiful chirpin.*

Lebih dikenal sebagai hewan peliharaan, sampai-sampai jarang sekali kita temui keberadaannya di alam bebas, terutama di perkotaan. Lanskap perkotaan yang banyak ditutupi bangunan-bangunan kian menggerus habitat burung perkutut. Burung dengan kicauan merdu ini memiliki habitat asli berupa hutan dan sekitar perkebunan di dataran rendah. Pengembangan ruang terbuka hijau di perkotaan seperti lapangan golf dapat menjadi solusi untuk menyediakan habitat satwa termasuk burung perkutut.

Better known as pets, this bird is rarely found in the wild, especially in urban areas. Urban landscapes that covered by buildings are reduce this bird's habitat. This sweet chirp bird have native habitat in the forest and surrounding of farm in the lowland. The development of green open space in urban areas such as golf courses can be a solution to provide habitat for animals, including perkutut bird.

Di Damai Indah Golf baik di BSD Course atau di PIK Course, burung perkutut sering dijumpai hinggap di dahan-dahan pohon sekitar area permainan dan tak jarang juga di permukaan rumput. Mereka hidup secara berkelompok. Perkembangbiakan burung ini juga cukup cepat. Makanan burung perkutut berupa biji-bijian. Kicauannya yang khas menciptakan nuansa alami yang sangat menyejukkan.

At Damai Indah Golf BSD Course atau di PIK Course, you can find the perkutut perched on tree branches and also on the grass surface. They live in groups. The breeding of these birds is also quite fast. Food of perkutut bird is grains. Its special chirp creates a very soothing natural feel.

Beberapa perkutut di lapangan golf telah terbiasa dengan kehadiran manusia dan tidak langsung terbang jika didekati, sehingga dapat diabadikan dengan camera hand phone yang sederhanaseperti foto berikut ini.

Perkutut on the golf course have become accustomed to the presence of humans, and does not fly immediately when approached, so that it can be captured with a simple camera phone, like these photos.

BEWARE TEE MARKERS ALIGNMENT

by: Wandy Wauran

Asst. Golf Operational Damai Indah Golf - BSD Course

Beberapa pegolf mungkin tidak menyadari bahwa tee marker tidak selalu mengarahkan Anda ke target yang optimal.

Gambar ini menunjukkan saat seorang pegolf mengikuti bidikan dari penanda tee. Dia membidik pepohonan di sebelah kanan fairway.

Some golfers might not realize that tee markers does not necessarily aim you to the optimal target.

This picture shows when a golfer is following the aim of the tee markers. She is aiming to the trees right of the fairway.

Gambar ini menunjukkan tujuan yang tepat dan keselarasan dengan target yang optimal. Harap jangan selalu berasumsi bahwa penanda tee ditujukan ke target yang dimaksudkan (fairway atau green). Mohon luangkan waktu untuk melihat target lubang yang diinginkan. Semoga Anda akan mendapatkan lebih banyak fairways dan green.

This picture shows the proper aim and alignment to the optimal target. Please do not always assume that the tee markers are aimed at the intended target (fairway or green). Please take the time to see the intended target of the hole. Hopefully you will hit more fairways and greens.

PLAYING THE BALL OUTSIDE OF THE TEE MARKERS

Gambar di sebelah kiri menunjukkan pegolf bermain di luar penanda tee. Dalam match play, lawan dapat meminta pemain memutar ulang tembakan tanpa penalti.
