Chairman Message

Dear Members,

Have a prosperous and healthy new year to all the members who are celebrating. I hope everyone is healthy and safe. Our club keeps monitoring health protocols consistently to ensure that you are safe when you come and enjoy the facilities.

A lot has happened in the last few months. Last December, our BSD and PIK Course received the CHSE (Cleanliness, Health, Safety, Environmental Sustainability) certification with the perfect success rate of 100%. This certification is dedicated to the golf course industry, initiated by the Indonesian tourism Ministry and succofindo, a certification body. Thank you to all the members, management and staff of Damai Indah Golf for your support in giving the very best service.

Special recognition goes to all the members who participated in our Christmas Wish Program. On behalf of Damai Indah Golf, I would like to sincerely thank each and every one of you who donated to the local orphanages. Your gifts were a great blessing to the kids.

We are continually working to keep both of our golf courses always in great condition by conducting aerator program in January.

Thank you to our dear and valued members for your kind attention. Happy Golfing!

Golf Course Maintenance

Anggrek Merpati, Bunga Indah dari Alam *Pigeon Orchid, a Beautiful Flower from Nature*

By Herdian Priambodo (BSD Course)

Jika anda hendak membeli tanaman anggrek di toko tanaman, mungkin jenis anggrek merpati akan jarang anda temui. Ya, tanaman anggrek dengan nama ilmiah *Dendrobium crumenatum* ini memang sangat jarang diperjual-belikan. Meskipun begitu, anggrek merpati sering kali tumbuh alami pada batang-batang pohon. Bunga anggrek merpati berwarna putih berukuran lebih kecil dibandingkan jenis anggrek yang lain. Bunga akan mulai bermekaran jika terjadi perubahan suhu lingkungan secara mendadak. Hal ini biasanya terjadi saat peralihan musim kemarau ke musim hujan. Bunga anggrek merpati juga merupakan salah satu jenis anggrek yang memiliki aroma.

*If you are going to buy orchid plants at a plant shop, maybe you will rarely to look pigeon orchids. Yes, the orchid plant with the scientific name *Dendrobium crumenatum* is very rarely traded. However, it often grows naturally on tree trunks. The color of pigeon orchid is white and it is smaller than other type of orchid. Flowers will start blooming if there is a sudden change in environmental temperature. This usually occurs when the dry season switches to the rainy season. Pigeon orchid flower is also one of many orchid type wich has an aroma.*

Anggrek merpati saat berbunga

Anggrek merpati biasanya tumbuh menumpang di batang pohon, apakah bersifat parasit? Jawabannya tidak, meskipun tumbuh menumpang di batang tanaman lain, tanaman ini tidak mengambil makanan dari tubuh inangnya. Kebutuhan unsur hara dipenuhi dari debu, dekomposisi kulit mati batang pohon, air hujan dan embun. Hal ini biasa dikenal sebagai tanaman epifit. Di sisi lain, terkadang tanaman ini juga dianggap mengganggu karena mencengkram batang pohon terlalu kuat hingga menyebabkan kerusakan pada inangnya.

Pigeon orchid usually grows on the tree trunks, is it parasitic? The answer is no, although it grows on the stems of other plant, it doesn't take food from it's host body. Nutrient needs are met from dust, dead bark decomposition of tree trunks, rainwater and dew. This is commonly known as epiphytic plant. On the other hand, sometimes this plant is also considered annoying because it grips the tree trunk too hard, causing damage to it's host.

Anggrek merpati saat belum berbunga

Anggrek merpati banyak tumbuh secara alami di Damai Indah Golf. Hal ini didukung kondisi lingkungan Damai Indah Golf yang banyak ditumbuhi pohon-pohon pelindung. Karena tumbuh secara alami, tidak banyak perawatan yang dilakukan terhadap tanaman ini. Kami hanya sesekali melakukan perbanyakan anggrek merpati dan menempatkannya di area yang lain. Jadi jangan lupa melihat keindahan bunga anggrek merpati jika anda bermain di Damai Indah Golf.

Many pigeon orchids grow naturally in Damai Indah Golf. This is supported by the environmental conditions of Damai Indah Golf which are overgrown with protective trees. Because it grows naturally, not much maintenance is done on this plant. We only occasionally propagate pigeon orchids and place them in other areas. So, don't forget to see the beauty of pigeon orchid if you play at Damai Indah Golf.
