FOUNDERS' CUP
New Monthly Medal Golf Tournament

Chairman Message

Dear Members,

The Club continues to monitor the current situation of covid-19 and adjusting to the changes of operations if needed in response to the situation. We are grateful that PIK Course employees have all been vaccinated for the second phase, and now BSD Course employees have started the first phase.

Many thanks to all the members for your continued patience, support and discipline in implementing health protocol. Wear a mask, always wash your hands after doing activities, keep a safe distance and staying away from crowds. I hope everyone is staying healthy facing this pandemic.

A lot has happened in the last few months. Club's new monthly medal tournament with live streaming prize giving is getting more popular and attracting more participants. Club Committee inauguration for the period of 2021 – 2023 was successfully held on April 11, 2021 at BSD Course. Congratulations to all committee of 2021 – 2023 and thank you to the previous club committee of 2019-2021 for your contribution to the club. The annual shareholders' meeting was held right after the Founders' Cup Tournament on June 12, 2021 in conjunction with the match play club championship first qualifying round at PIK Course.

Special mention to Yuka Saso and Nasa Hataoka. Last June, Yuka won 2021 US Women Open. She also won the 2014 Ciputra World Junior Golf. She happened to beat Nasa Hataoka, the winner of 2016 Ciputra World Junior Golf Championship in the third play-off hole. Damai Indah Golf is proud to be a part of their journey to golfing excellence.

Our Club is continually conducting course maintenance program regularly on and off course for the next three months to keep the course always in good condition. Verticut, top dress greens, tees, fairways, reshaping black tees to be square shape and tees levelling are some of the work being done.

Thank you to our dear and valued members for your kind attention. Stay safe, stay healthy and keep up the exercise.

A handwritten signature in black ink, appearing to be 'Zainudin Amali', written in a cursive style with a long horizontal stroke extending to the right.

Golf Course Maintenance

KELAPA (Salah satu karakter PIK Course)

COCOS NUCIFERA

By Rahmi (landscape PIK Course)

Cocos nucifera atau yang memiliki nama lokal kelapa ini sering disebut dengan tree of life, karena setiap bagiannya memiliki manfaat. Pohon jenis palem ini toleran terhadap berbagai jenis tanah dan kondisi iklim sehingga mampu hidup di dataran rendah maupun dataran tinggi. Meskipun termasuk dalam tanaman yang mudah beradaptasi, kelapa akan tumbuh lebih optimal di dataran rendah atau pada ketinggian 0–450 m dpl, seperti kelapa yang tumbuh tersebar di PIK Course yang berada dekat dengan kawasan pesisir pantai. Kelapa yang tumbuh di PIK Course memiliki produktifitas buah yang tinggi dengan kualitas rasa yang jauh lebih manis. Buah kelapa yang dihasilkan dapat dicoba langsung di restaurant untuk menikmati segarnya air kelapa yang langsung diambil dari pohonnya.

Es Sirsak Kelapa yang ada di PIK Course

Cocos nucifera or which has the local name coconut is often called the tree of life, because every part of it has benefits. This type of palm tree is tolerant of various types of soil and climatic conditions so that it can live in the lowlands and highlands. Even though it is an adaptable plant, coconut will grow more optimally in the lowlands or at an altitude of 0–450 m above sea level, like coconuts that grow scattered on the PIK Course which is close to the coastal area. Coconuts grown at PIK Course have high fruit productivity with a much sweeter taste. The coconuts produced can be tried directly at the restaurant to enjoy the fresh coconut water taken directly from the tree.

Terdapat beberapa jenis kelapa yang tersebar di PIK Course, yaitu jenis kelapa hijau, kelapa hibrida, kelapa pandan wangi, kelapa gading, kelapa lilin, dan kelapa kopyor. Meskipun sekilas tampak sama, jenis-jenis kelapa tersebut memiliki ciri-ciri yang berbeda. Kelapa hijau yang banyak tersebar di seluruh hole memiliki ciri fisik pohon yang tinggi dengan buah yang lebih lembut dan kenyal. Kelapa hibrida memiliki fisik pohon yang lebih pendek, buah yang lebat, dan daging buah yang sangat tebal. Kelapa pandan memiliki ciri-ciri yang hampir mirip dengan kelapa hibrida dengan buah berukuran kecil, lebat serta memiliki aroma yang khas pandan wangi. Kelapa gading memiliki ciri-ciri fisik daun dan buah kelapa yang cenderung berwarna kuning dan lebih kecil. Sedangkan kelapa lilin dan kelapa kopyor, memiliki buah yang unik. Buah kelapa lilin memiliki daging buah yang seperti lilin (meleleh jika terkena panas) dan kelapa kopyor memiliki daging buah yang rapuh serta air yang banyak.

There are several types of coconuts scattered on the PIK Course, namely types of green coconut, hybrid coconut, pandan wangi coconut, gading coconut, lilin coconut, and kopyor coconut. Although at first glance they look the same, these types of coconuts have different characteristics. Green coconuts that are widely scattered throughout the hole have the physical characteristics of a tall tree with softer and more chewy fruit. Hybrid coconut has a shorter tree physique, dense fruit, and very thick flesh. Pandan coconut has the similar physical characteristics to hybrid coconut with a small fruit, dense and has a distinctive aroma of fragrant pandan. Gading coconut has physical characteristics of coconut leaves and fruit which tend to be yellow and smaller. Meanwhile, lilin coconut and kopyor coconut, have a unique fruit. Lilin coconuts have waxy flesh (melts when exposed to heat) and kopyor coconuts have brittle flesh and a lot of water.

Kelapa Muda dan Kelapa Gading yang diambil langsung dari pohonnya

Penanaman kelapa di PIK Course juga memberikan manfaat secara visual. Selain mendukung konsep coastal landscape, bentuk batangnya yang tinggi dan tegak memberikan kesan ruang yang megah, sedangkan bentuk tajuknya yang unik memberikan kesan ruang pengarah pada penanaman di pinggir jalan.

Coconut planting at PIK Course also provides visual benefits. In addition to supporting the coastal landscape concept, the tall and upright shape of the trunk gives the impression of a spacious space while the unique canopy shape gives the impression of guiding space for planting on the roadside.

Penanaman Kelapa di pinggir jalan antara hole 6 dan hole 13 yang membentuk kesan ruang pengarah

Secara umum, tanaman kelapa sering dimanfaatkan untuk menunjang kehidupan manusia mulai dari akarnya hingga daun dan buahnya. Selain pemanfaatan untuk dikonsumsi, kelapa juga digunakan untuk bahan baku perabotan rumah tangga hingga obat-obatan. Dengan beragam jenis manfaatnya, kelapa sendiri sangat mudah untuk dibudidayakan. Proses penanaman dapat dilakukan dengan menyiapkan lubang tanam dan bibit kelapa unggulan. Lubang tanam disiapkan pada 2-4 minggu sebelum penanaman dengan tanah yang telah dicampur pupuk kandang atau pupuk lainnya sesuai dengan kebutuhan. Setelah lubang tanam siap, tanam bibit kelapa dengan kedalaman sekitar 10 cm dari permukaan tanah. Terakhir, lakukan perawatan dengan memberikan pupuk urea pada 1 bulan pertama dan selanjutnya pemupukan dalam satu tahun, yaitu saat musim hujan berakhir dan ketika awal musim hujan. Selain itu, penyiraman perlu dilakukan secara berkala, 2-3 kali dalam sehari terutama saat mulai memasuki musim kemarau.

In general, coconut plants are often used to support human life from the roots to the leaves and fruit. Besides for consumed, coconut is also used as raw material for household furniture and medicines. With a variety of benefits, coconut itself is very easy to cultivate. The planting process can be done by preparing planting holes and quality coconut seeds. Planting holes are prepared 2-4 weeks before planting with soil that has been mixed with manure or other fertilizers as needed. After the planting hole is ready, plant the coconut seedlings with a depth of about 10 cm from the soil surface. Last, do the treatment by giving urea fertilizer in the first month and then fertilizing in one year, especially when the rainy season ends and when the rainy season begins. In addition, watering needs to be done regularly, 2-3 times a day, especially when the dry season begins.

Golf Tips

L to L Swing Mustafa - BSD Professional

Berlatih membuat L (sudut lengan dan club anda) selama backswing (gambar 1) dan buat sudut yang sama selama backswing (gambar 2). Latihan ini akan membantu Anda dalam melepaskan clubface sehingga menghasilkan pukulan yang lebih lurus.

Practice making L (angle of your arms and the club) during the backswing (pic 1) and make that same angle during your backswing (pic 2). This drill will help you in releasing the clubface resulting in straighter shots.

New Golf Rules

by: JHON R. TJAHHADI
Captain Club Committee

Rule 4 - 1b

Aturan 4-1b dari Aturan Golf:

Pemain tidak boleh memulai ronde yang ditentukan dengan lebih dari empat belas klub. Dia terbatas pada klub yang dipilih untuk putaran itu, kecuali jika dia memulai dengan kurang dari empat belas klub, dia dapat menambahkan nomor berapa pun, asalkan jumlah totalnya tidak melebihi empat belas.

Rule 4-1b of the Rules of Golf:

The player must not start a stipulated round with more than fourteen clubs. He is limited to the clubs thus selected for that round, except that if he started with fewer than fourteen clubs, he may add any number, provided his total number does not exceed fourteen.

BOOKING PROCEDURES FOR GOLF TEE TIMES

- Members may make bookings for tee times up to two weeks in advance.
- Booking should be made by fax whenever possible and the booking office will confirm by fax. The booking office opening hour
Monday through Friday : 08.00-17.00
Saturday : 08.00-12.00
Sunday & public holiday : Closed
Direct telephone : (021) 537-0285
Direct fax : (021) 537-0282
- Members are able to book for other members by fax. The member making the booking for the other member (s) assumes responsibility for any "no show" penalties, should those other members "no-show up".
- On Saturdays, Sundays and Public Holidays, members are welcome to bring up to a maximum three accompanied guests or other members, with minimum three (3) golfers in one (1) flight. These bookings must be done by fax. Phone booking cannot be confirmed until a fax booking request has been received from the members.
- Single or 2-ball players will not be allowed to book. In most cases, if they come to the course we will be able to pair with other around of less than 4 players.
- On weekends and public holidays, only members with official DIG handicaps not exceeding 28 are allowed to play before 11.00.
- Cancellations must be made by fax within 72 hours of the booked tee time. Any cancellations after that time will result in a no-show penalty.
- No-show by a Member will result in a written notice on the first offence and any subsequent no-shows will result in a penalty or charge of three accompanied Guest green fee per flight booked.
