# Message From President Director

Happy Eid Mubarak to all the Members who are celebrating.

Special recognition goes to all the members who participated in our Ramadhan Berbagi Wish Program. On behalf of Damai Indah Golf, I would like to sincerely thank each and every one of you who donated to the local orphanages. Your gifts were a great blessing to the kids.

There has been lot of progress in our club house interior renovation at BSD Course. Now is continuing on ladies lockers and the new VIP Rooms. Our sincere apologies for your inconvenience.

Leadbetter Golf Academy is now open at Driving Range BSD Course. Open for all ages, even the beginner who is interested in learning golf basics. Please feel free to come and visit them.

The new concept driving range will open at our PIK Course. The first driving range in Indonesia merging with Inrange, a radar technology company, combined with casual dining environment, food and beverages and a special 18 holes putting course.

Continuing our efforts to keep our golf courses always in great condition by conducting course maintenance program regularly, such as aerator and top dress green, reshaping fairway, levelling teeing area and fixing drainage in rough area.

Thank you to our dear and valued members for your kind attention. Happy Golfing!

Budiarsa Sastrawinata  
President Director

# Golf Course Maintenance

## FLAMBOYAN

By Herdian

Pohon Flamboyan telah lama menjadi ikon di lapangan BSD dan PIK Course. Pada pertengahan musim panas biasanya pohon dipenuhi bunga. Warna merah bunganya sangat kontras dengan warna hijau yang mendominasi lapangan golf. Jika anda sering mengunjungi PIK dan BSD Course, anda pasti pernah menyaksikan keindahan pohon flamboyan yang sedang berbunga.

*The Flamboyant Tree has long been an icon in the BSD and PIK Course fields. In mid-summer the tree is usually full of flowers. The red color of the flowers is in stark contrast to the green color that dominates the golf course. If you often visit PIK and BSD Course, you must have witnessed the beauty of a flamboyant tree in bloom.*

Flamboyan (*Delonix regia*) adalah tanaman asli dari Madagaskar yang sudah lama diintroduksi dan berkembang di Indonesia. Flamboyan memiliki nama genus *Delonix* yang berasal dari kata Yunani *delos* (artinya mencolok), dan *onyx*, berarti cakar. Nama tersebut mengacu pada warna bunga yang merah cerah mencolok dan bentuk mahkota bunga mengembang seperti cakar. Flamboyan termasuk kelompok pohon besar dengan tajuk berbentuk payung. Ketinggian pohon dapat mencapai 15 meter atau lebih. Daunnya berbentuk daun majemuk (menyirip ganda).

*Flamboyant (*Delonix regia*) is a native plant of Madagascar which has long been introduced and propagated in Indonesia. Flamboyant has the genus name *Delonix* which comes from the Greek words *delos* (meaning striking), and *onyx*, meaning claw. The name refers to the bright red color of the flowers and the shape of the flower crown that expands like claws. Flamboyant is in a group of large tree with an umbrella-shaped canopy. Trees can reach 15 meters or more in height. The leaves are compound leaves (double pinnate).*

Flamboyan di Hole 8 BSD Course

Kelebihan pohon ini adalah selain berbunga indah, pohon ini rindang dengan percabangan yang unik sehingga cocok untuk menjadi pohon peneduh atau aksen taman. Daunnya yang kecil membuat pohon ini tidak membuat banyak sampah daun.

*The advantage of this tree is that in addition to its beautiful flowering, this tree is shady with unique branches making it suitable as a shade tree or garden accent. Its small leaves make this tree not make a lot of leaf litter.*

Sedangkan kekurangannya adalah pohon ini harus dikembang biakan dengan biji sehingga memerlukan waktu yang lama untuk menjadi pohon yang bias berbunga. Akarnya juga terlihat keluar tanah dan bisa merusak struktur yang ada didekatnya.

*While the drawback is that this tree must be propagated by seed so it takes a long time to become the flowering tree. The roots can be seen sticking out of the ground and can damage nearby structure.*
